Table 6

Discussion #1 2:30 – 2:50

1, 3, 5: How to accomplish/be successful in research as a teaching faculty? (in CS Education? With students? With colleagues in the department, TTF or TT, etc) How to be recognized for research?

2,4,6: What should the annual evaluation look like? What best practices exist? Can we get examples? Michelle Craig has been working on a “Rubric” for departments to evaluate their TF practices against. Could be interesting to have her present this rubric and for people to score their departments on this rubric.

2:50 - 3:05 Whole-group sharing

Discussion #2 3:05 – 3:25

1, 4:

How to achieve first-class citizen status in a research focused department? How do I know I am a first class citizen? How do I act like one?

2, 5: How can teaching faculty encourage/facilitate relationships with tenure-track faculty in their department that build a respectful faculty community/culture?

3,6: What are effective techniques of obtaining support from the department and other leaders to accomplish your job?

3:25 - 3:45 Whole-group sharing
